Urban impact

Our Mission

The CityLAB is an experimental laboratory for the city of the future. Here, representatives from government, civil society, academia and start-ups collaboratively develop new ideas for how to both ensure and enhance the livability of Berlin as a city. The CityLAB combines elements of a digital workshop, a co-working space and event space into a single location where participation and innovation are jointly pursued. We see digitalization as an opportunity to re-think existing processes, dismantle social barriers and create new forms of civic participation.

Help us connect #CityRebels across Europe.

Urban impact

We accelerate Urban Tech Innovation in Europe

What we focus on

Physical City

Mobility

Citizen

Services

We are running out of time

Smart Cities are a key driver for achieving the SDGs...
...AND a significant market

<u>BUT:</u> we need to speed up. 8 years to go according to the global carbon clock ...

Our approach

Impact-focused

Disruptive O A A

Skin in the game 1
