The **3rd AVCJ Women in Asian Private Equity Forum** successfully took place virtually on 10 December 2020. The event brought together over 190+ female and male professionals including 70+ LPs, representing 125+ different organizations from 20 countries.

The conference, which focused on the key learnings and top issues surrounding gender equality and D&I in the industry, was kicked off by an opening panel on championing D&I during a crisis, and featured executives from leading organizations such as CPPIB, CVC Capital Partners and Goldman Sachs speaking on a number of selected and well-researched topics including talent and culture and LP insights on diversity.
